On Board with Adjectives

ACTIVITY 1

Underline the adjectives in the story below:

One fine day, the naughty Big Bad Wolf, the kind Sleeping Beauty, and the naïve Pinocchio decided to go skateboarding together. These awesome friends loved sports. Pinocchio had five skateboards, but this skateboard was his favorite one. The beautiful Sleeping Beauty had a cool skateboard, too. It was covered with pink petals. The hairy wolf brought the coolest skateboard of all. It had eight tiny wheels and was covered in white carpet. It looked like a fluffy rabbit. The three best friends did several amazing tricks on their skateboards. First, the curious Pinocchio did a flip, landed on his long nose, and spun around for four minutes. That trick amazed the hairy wolf and the quiet Sleeping Beauty. Next, the strong wolf kicked his skateboard into the air, caught it in his huge mouth, and gobbled it down. The careless Sleeping Beauty did the strangest trick of all. While skateboarding, she fell asleep. Fortunately, she landed in some soft grass. She was fine and just lay there in a deep slumber.

ACTIVITY 2

Read the above passage again. Find all the adjectives that answer each question:

What kind? *fine* day _____

How many? *five* skateboards _____

Which one or ones? *these* friends _____

ACTIVITY 3:

You are going to work in teams of 4. You have 3 minutes to construct the longest sentence possible using as many adjectives as possible from the story above. Write it in your notebooks. You will score one point if a sentence is grammatically correct, another point for inventiveness, and one point for every word in the sentence. The team with the most words wins.
